Subject: Site 22, Hadnot Point Industrial Area Tank Farm
USMC Camp Lejeune Military Reservation
NC6 170 022 580
Jacksonville, Onslow County, North Carolina

Dear Sir and Madam:

As discussed in a letter dated 16 April 1992 from Mr. P.A. Rakowski, Head Environmental Program Branch, Site 22, Hadnot Point Industrial Area Tank Farm was discussed at the last Remedial Project Managers' meeting at MCB Camp Lejeune on 19 and 20 February 1992. It is our understanding that all pervious sampling in and around Site 22 indicates that petroleum-related products from tanks at this site are the only apparent source of contamination. Also these tanks contain only jet fuel and, therefore, are exempt from CERCLA under the petroleum exclusion.

During the February meeting, EPA Region IV, NC DEHNR, and Navy/Marine Corps representatives agreed that if petroleum-related products are the only apparent sources of contamination at Site 22, further remediation work would appropriately be performed under the cognizance of the UST programs of the Navy/Marine Corps and the State of North Carolina.
